**Any colour of flower**

**Any type of seed**

## What we can offer

Any type of seed: flowers in any colour, vegetables, trees, herbs, wildflowers, exotics...

## Company and Brand Promotion

With the wide range of seed varieties at our disposal, we can use different colours or plant habits to complement and support any promotional activity.

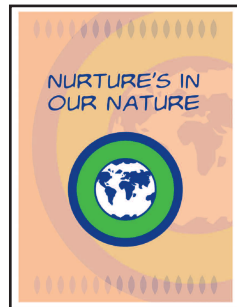

We work with our customers to decide the best options in seeds and packaging. We specialise in flowers but can source almost anything to match individual requirements.

## Fundraising for Organisations

Packeted seeds are excellent for fund-raising campaigns.

Their perceived value and high levels of customer satisfaction make them ideal for schools, sports organisations, churches, charities and fetes.

## Internal company marketing

Use seed packets as an effective way to send internal messages to motivate and inform staff.

## Visiting Cards

Use seed packets as visiting cards to help your contacts remember your organisation.

## Wedding Favours

A wonderful souvenir of a memorable occasion. Seeds can be packaged in a variety of ways to be given away as a memento of the wedding day. They can be fully personalised to each guest, and can also be used as table place name cards.

## Competitions

Seeds such as tall sunflowers are excellent to grow for competitions tallest, heaviest, largest. Fun for all ages.

## Give-aways

Use as part of a give-away bag for lasting impact.

## Childrens Seeds / Schools

Get children interested in the garden and out in the fresh air. Have fun with mustard and cress in schools, or germinate and grow beans.

## Any time of year

By choosing appropriate species, promotional packs can be chosen for any time of year, not just spring and summer.

## Eco-friendly

Seeds are an entirely eco-friendly way of making a promotion.

## Sowing and Growing

All packets come with easy to follow suggestions as to how best to sow, germinate and grow the seeds.
